Shherman describes an important meeting in which Judge Terry took part, as follows:

"I went up and found there in a room on the second floor over the bar-room Gov. Johnson, Chief Justice Terry, Jones of Palmer, Cook & Co., E. D. Baker, Volney E. Howard and one or two others. We discussed matters generally and Judge Terry said that the Vigilance Committee were a set of d-d pork merchants; that they were getting scared and that Gen. Wool was in collusion with them to bring the State into con-tempt. About that time Crockett and his associates of the conciliation party sent cards, but Terry and

up their cards, but Terry and the more violent of the Governor's followers denounced them as no better than the vigilantes and wanted the Governor to recluse even to receive them. All the time Grockett was speaking Terry sat with his hat on drawn over his eyes and with his feet on a table. As soon as Crockett was through they were dismissed, and Johnson began to prepare a written answer. This answer amounted to little or nothing. Seeing that we were powerless for good and that violent counsels would prevail under the influence of Terry and others, I sat down at a table and wrote my resignation, which Johnson accepted in a compilmentary note on the spot and at the same time he appointed in my place Gen. Voincy E. Howard, then present, a lawyer who had once been a member of Congress from Texas, and who was expected to drive the 'd—d pork merchants' into the bay at short notice.

"'Mai. Voincy E. Howard continued the organization of the militia which I had begun, and succeeded in getting a few arms from the country, but one day the Vigilance Committee sallied from their armories, captured the arms of the 'law and order party,' put some of their men into prison, while Gen. Howard with others escaped to the country, after which the Vigilance Committee had is all their own way. Subsequently, in July, 1856, they arrested Chief Justice Terry and tried him for stabbing one of their constables, but he managed to escape at night and took refuge with John Adams. In August they hanged Helperington and Brace in broad daylight, without any jury trial and soon after they quietly disbanded. As they controlled the press they wrote their own history and the world generally gives them the credit of having purged San Francisco of rowdles and roughs; but their success has given great stimulus to a dangerous principle that would at any time justify the mob in seizing the power of government, and who are compressed of the worst instead of the best elements of a community."

Interview With Cyrus W. Field.

By Telegraph to the POST-DISPATOR. NEW YORK, August 16 .- Mr. Cyrus W. Field talked about the shooting vesterday afternoon to a reporter who called upon him in hi office in the Washington building. He said:

"We had known for some time past that our brother's life was in danger at the hands of Terry. He had been advised to carry a weapon, but he replied that if a judge, sitting in court, was obliged to be armed in order to protect himself from attack, he had better give up his seat on the benoh. From what we have learned of the case we are satisfied that Terry and his wife had arranged before hand this attack upon my brother and with a view to forcing him to resent arrinsuit, so that he might be shot and killed under such circumstances that the shooter would have a plea of self-defense to fall back upon. Had beputy Marshal Nagle not been at hand, the preoncerted programme of the Terrys would have undoubtedly been sain. Judge Field would have resented Terry's attack, I know, and I suppose no one would doubt he, unarmed as he was, would have been slain. SAN FRANCISCO, Cal., August 16 .- The Terry tragedy continues to dwarf all other news in the popular mind in this city and hard taken charge of the minitary loves the hurriedly organized. Gen. Sherman acknowledged that such was the case.

"I know too much about affairs of that time in California," said he, "but I won't tak about them. I won't express my opinion bearing upon the present case. I don't need to, Justice Field is amply able to attend to the case. At the same time I am very willing that you should find out all that I know about affairs in California at the time Judge Terry was prominent in connection with the vigilantes' work, and I can tell you that all you have to do is to consult the first volume of my memoirs."

Gen. Sherman was engaged in the banking business in ban Francisco at the time he made the acquaintance of Judge Terry and other prominent Californians whose names have been recalled by the recent tragedy. The General describes very graphically the organizing of the vigilantes, the hanging of Casey and Cora, and the preparations made to resist with arms any unlawful proceedings. Then he proceeds:

"The Chief Justice, Terry, came to fan Francisco the next day, issued a writ of habeas corpus for the body of one Maloney, which writ was resisted, as we expected. The Governor then issued his proclamation and I published my orders dated June 4, 1855. Some throughout California. Public interest

Attorney-General Miller Talks.

Indianapolis, Ind., August 16 .- Attorney General Miller was seen yesterday and asked if he had anything further to say about the shooting of Judge Terry by Deputy Nagle. He

shooting of Judge Terry by Deputy Nagie. He replied:

"I see from the papers that the action of the deputy is pretty generally indorsed. It appears to be considered that Nagie's presence was necessary and his action justifiable. I don't cage to speak of the legal aspects of the case. I do not know any case analogous to it in our history and I do not recall that it has ever been necessary before to provide protection for a United States Judge. If the case comes to trial I suppose I will be called to testify, but I question whether there will ever be a trial. The Grand Jury may refuse to act or the Coroner's jury may find it a case of justifiable homicide. I have not examined the legal side of the question, however. I though the protection of the officers of the law might be necessary, and I knew something about the desperate character of the man with whom Justice Field had to deal. I though to ftrouble when the trial began, but of course I did not look for it at a way station or upon the train. If the Justice's life was in danger, though, he was as much entitled to the protection of the officer at an eating house as in a court-room or upon a beach."

Though the Attorney-General was very or upon a bench."
Though the Attorney-General was very guarded in his utterances, his manner indicated very plainly that he believed Deputy Nagle was fully justified in shooting Terry.

SAN FRANCISCO, Cal., August 16.—The Supreme

the late David S. Terry was formerly Chief Justice, this morning refused to adjourn out of respect to Terry's memory. LITTLE ROCK, Ark., August 16. - Deputy United States Marshal Faulkenburg came in rom Howard County last night, having in charge Henry Heffling, who is claimed to be the leader of a gang of counterfeiters who have been operating in Southwest Arkansas. Heffling denies all knowledge of the gang or of its operations, but Marshal Faulkenburg says the evidence against him is very strong. It is said the counterfeiters have headquarters in a secluded mountain fastness, where the bogus coin is made, and it is believed Heffling will give away his confederates and save himself.

which experienced a successful raid from the bear side under the lead of John H. Blessing, as represented by Brentano. This stock, assessable, and representing only a bond on the property, was placed here at 10 cents, and from that was run up to 58%. Blessing then began to bear it, and said he would see it down to 10 cents or lower. Since then the bull side has been active, though a few weeks ago the stock was sold down to 15 cents, from which it recovered over 5 cents. It has been claimed that only 18,000 shares of stock are out, whereas several times that amount has been sold, and the source of the stock has been something of a mystery. From the record of the last few days it was supposed that the market would score a higher point this week. Consequently there was some surprise when Brentano appeared and gave ev dence of being able to load the crowd up. He began selling at 14½, and sold the market down to 11½, at which 1,400 shares changed hands, with 4,400 shares at 12, and 1,300 at 13. His sales at the close footed up about 9,000 shares, and 11 was bid and 11½ asked.

Pine Grove was talked of a great deal, but Pine Grove was talked of a great deal, but remained about steady at 37½ to 40, J. C. Mac-Ginnitie, its champion, was on hand to buy, but evidently wanted to keep the market where it is, and when there was any sign after call that it might change he checked it by bidding 37½ and asking 38¾. At the latter price 1,100 shares changed hands, while 500 shares sold at 40, early, and the market closed at 37½ bid and 38¾ asked. There was no news in from the mine.

Pedro was strong, but buyers were not disposed to rush in. Later, nowever, W. H. Wernse handed out his card to be filled up at 14, but without getting anything. The market opened up with a sale of 110 shares at 15, and was followed with 1,000 at 1843. Then 1,400 sold at 14 and 300 at 1442, and the market closed strong at 14 bid and 1442 asked, and sellers bidding at 14.

There was some talk of Buckskin, Cariboo and Black Spar. The former after call sold 700 at 2½, with 3,000 Cariboo at 3 and 500 Black Spar at 2. There was considerable more demand for Cariboo at 2½.

Approved by Senator Voorhees.

Terre Haute, Ind., August 16.—The senior Senator from Indiana, Mr. Voorhees, heartily sustains Attorney-General Miller in what he did to protect Justice Field.

"It has been well known for some time past," he said, "that Justice Field's life would be in imminent peril whenever his duties called him again in California. He was deliberately and openly threatened with death or extreme humiliation by one of the most desperate and dangerous men ever known on the Pacific Coast. His committal of Judge Terry for contempt of court was not only impoured by the defense of his own court, but also in defense of ferry other court in the United States against lawless outrage. The Gold Queen people received a telegram from Manager McBurney this morning, dated August 15, saying be had struck a three and one-half foot vein of good ore in No. 2 level, on the Eagle, where he commenced working a few days ago. Work is progressing well on the Triangle and the stopes are looking fine.

Frisco had in a good weekly report. Supt. Smith had extended the east 400 foot level to a length of 827 feet. The vein in the face was 80 inches, and soft with a manganese quartz through it. He regarded it as looking very favorable for ore. The stope was producing some fine ore, and he had one car ready to ship and five tons out toward another car.

In the Golden West election contest it was reported that everything was harmonious, and that the candidates given as being defeated had withdrawn before the close of the balloting.

The Cleveland and Anchor had a letter from Secretary Leahy, following the telegrams published a couple of days ago. It read: "Telegraphed you contents of letters dated July 20 and 30 from Supt. Readon. We have a great mine in every sense of the word. Additional developments in drifting on main ledge will, in the opinion of Supt. Readon, encounter a rich deposit of sulphurets. We will begin immediately to prepare to work the mine on a larger scale." This is supposed to mean that the force is to be increased so as to stope and ship as well as push the more complete development of the property. The local stockholders were given much stronger confidence in it even than they have yet had.

The Phillips mill has been closed down for a few days until connections could be made with a large crusher which has been put in. It was expected that it would start up again to-day. The addition of the crusher will enable the company to reduce the cost of treating the ores very considerably, as it will now nearly all be done by automatic and waterpower machinery.

Secretary Albert Singer of the Sliver Men's Convention received a letter this morning from Mr. Ivan C, Michels of the United States Senate Committee on Mines and Mining, volunteering his services in any way they may be utilized in connection with the movement. He also had a number of letters from gentlemen appointed on the General Committee of Arrangements, accepting the trust, and speaking enthusiastically of the project. The movement is gaining material headway daily and may now be regarded as an assured success.

The Cascade had a letter confirmatory of the strike reported by telegraph. The stock was strong, but without any transactions.

But little was doing in trust certificates. Sugars stood at 107% and 108%. Leads were 23 and 25%. Whiskys were 47% and 47%. Cottons had only one quotation, 53%.

The Aztec had in a letter this morning confirming the strike already reported by telegraph. Supt. Einstein is, however, uncertain as to whether it is the Kieptomania lode. In sinking the Kieptomania shaft the vein passed out of it, dipping in the direction away from the Pacific vein. The shaft was continued on down and at 142 feet struck the vein as announced. The strike, however, may be of the hanging wall of the Pacific vein, as the shaft is being sunk between the two. The rook is all mineralized, however, and shows free gold all through it, with a strongly defined streak of Galena. The mill is running ten stamps without hitch, and the water supply from the well is ample for these and increasing daily. The ore reserves are large and the full twenty stamps will soon be dropping.

The Consolidated Coal Co. stock is coming into active trading, and is very strong at \$4.50 and \$45, the latter being really the ruling value. The strength is due to the annual report sent out yesterday. This report gives as an excuse for the passing of the last dividend the fact that the mild winter had decreased the company's income, and the desire of the directors to prepay some of the company may be divided among the stockholders. A large number of these notes which are not due until September have been paid and it is now expected that a dividend will be paid September 1. Mr. John H. Blessing, who has been a large purchaser, also says the company's estimates show that they now have about eighty years' coal supply ahead and that they are now earning 6 per cent on the capital at \$100 per share, which would mean over 12 per cent on the present market value.

The subscription to the \$150,000 capital stock of the Barnum Hotel Building Co. is progressing very satisfactorily. Up to the present time about \$40,000 of it has been placed, in addition to the \$50,000 used in the purchase of the property. The bond issue, of \$300,000, goes to Philadesphia parties.

The Mexican Improvement had in a very good letter. The contractor was furnishing ore which milied \$73\$ and which was much more satisfactory than any assay. The smelting machinery has all arrived, except a few pieces, and is ready to be set up.

The attorney of the Scott Elevated Railway o., Mortimer F. Taylor, has con \$21,000 purchase of seventy acres of ground located at the northern terminus of the proposed road in the vicinity of Jennings' Heights. The papers to this transaction were made out and laid upon the desk of R. J. Lackland, President of the Boatman's Savings Bank, ready for delivery this afternoon, and the presumption is that they have been handed over to the attorney ere now.

This is a very significant transaction.
Whether Mr. Taylor has bought the ground for himself or for the company, the purchase will be looked upon as very good evidence that the "L" road peopie really mean business, as there is nothing that can be used in St. Louis with such argu-

It is well known that the Messrs. Scott have already acquired immense tracts of ground on the southern and on the southwestern branches of the road, Tyler place near Tower Grove Park, and Dundee place and Gibson Heights being their principal holdings in that direction. On the other hand though there is no public record of these enterprising real estate operators having bought any ground heretofore along the northern branch or at its terminus, it has been anticipated that they would buy heavily in that direction, either for themselves or for persons whom they may represent.

within a short time will have over 10,000 tons of good grade.

The demand for the preferred stock of the reorganized Laclede Gas Co. is becoming very urgent. While there was a possibility of the Municipal Assembly passing the new gas ordinance just laid over the Laclede stock had no popularity whatever, though investors did not as a general thing have any idea of its being passed. The laying over of the bill strengthened the market, however, and increased the demand. Where sales of stock were made before at \$50 and \$53, they have since been made at \$57.50, and there are good bids at that. The bonds, which sold at about 26, are now in good demand at par. time.

ceptible of being piatted into lots and blocks to the greatest advantage, and it is spacious enough to be utilized for a very extensive summer resort.

For residence sites the land has many advantages, as it is situated very high, overlooking the city, and from its eminence a very entensive view of the Mississippi River, up at ream and down, may be obtained. The Wabash road runs through that section, and it was these considerations that induced a local syndicate to buy the site now called Jeanings Heights, which is now being built up with a great many handsome home places. This syndicate were realizing spiendid profits upon their investment, and the success they were having in disposing of lots to such good advantage induced parties to try and buy adjoining property for speculation. They concluded to buy the 70 acres which have been deeded to Mortimer Taylor, and never thought they had a competitor in the field until this afternoon when they learned that Mr. Lackland had concluded the sale and was ready to pass title to the elevated railway attorney.

The property sold belonged to Berenice Morrison, now Mrs. Morrison-Fuller, for whom Mr. Lackland is attorney in fact. The ground is nothing but agricultural land now. It lies north of Calvary and Bellefontaine Cemeteries and beyond the northern city limits. Jennings Heights joins the plat on the south. The McLaran tract is west and the Switzer property to the east of it, and Florissant avenue is the northern boundary.

A Knotty Question settled by the Holf County Circuit Court.

By Telegraph to the Post-Dispatch. ATCHISON, Kan., August 16 .- For many years there has been a dispute between the ordering on the Missouri River as to the ferred to in the bionnial message of Gov John A. Martin of Kansas. When Missouri was admitted to Union its west line was a and south line from the north line of Arkansas to the south line of Iowa, and a massive iron post to this day stands at the original intersection with the Iowa line. Later, as everybody knows, the State of Missouri, by the agency of the United States Government bought all knows, the State of Missouri, by the agency of the United States Government bought all that territory lying between the original line and the river from the Platte Indians. This has ever since been known as the "Platte Purchase," and includes the counties of Clay, Platte, Buchanan and others to the lows side. The west boundary of the Platte District by original treaty with the Platte Indians extended to low water mark on the east side of the Missouri River. When Kansas was admitted the line of the State was fixed on the west line of the State of Missouri. A Missouri court, the Circuit Court of Holt County, has just decided in a case brought by the owners of ground on the Missouri shore to dispossess some squatters on an adjacent island east of the main channel that the boundary line of Missouri only extends to low-water mark, as stated, and that the islands are not "accretions." Consequently the Missouri farmers are not entitled to recover.

He had to share her degradation, disappointments, passions and disreputable quarrels. The sympathies of the two were undoubtedly linked in a close bond of kindred natures. They were affinities in every sense of the word. They were fuel and flames to each other. But that is ended now.

> But what of her? If there is a spark of humanity in her there must be unspeakable remorse and regret arising from the guilty knowledge of her share in the tragedy which wrecked her husband and deprived her of her best friend. It was through her that the fatal quarrel arose, and no one doubts that TERRY was spurred to his doom by her counsel. Even if she be wholly evil, added to deep regrets and the bitterness of foiled vengeance and disappointed hopes is the sense of irreparable loss. There is something pathetic in her grief over her husband's body, but it is the pathos which is associated with unrelenting fate.

PATHETIC AND BOMANTIC.

PHILADELPHIA, Pa., August 16 .- Mr. an Mrs. H. Burbank arrived here vesterday on way from New York to Nebraska. They had a strange story to tell. At the Brooklyn Theater fire years ago the father and sister of your Burbank were lost, as were the mother an sister of Sadie King, who then lived in State street, Brooklyn. Mr. Burbank wrote from street, Brooklyn. Mr. Burbank wrote from
the West for information about his folks and
was answered by Miss King, who wrote occasionally for her uncle, an undertaker.
Young Burbank read the letter and a correspondence has been kept up ever since. Last
October he proposed marriage. She replied
in a satisfactory manner, but suggested as the
Brooklyn fire had been the means of their
meeting that they should carry out the marriage ceremony in Greenwood Cemetery, near
the monument that was erected by the city of
Brooklyn for the unknown dead who perished
in the terrible disaster. On Wednesday Mr.
Burbank, accompanied by Col. Montgomery
Green of St. Louis, an old friend of his father,
Forster Bishop of Cincinnati and his sister,
arrived in Brooklyn and met Miss King for
the first time at her house on De Kalb avenue.
They drove to the cemetery with a minister

WERITAKEN BY A SNOW-STORM.

They extended along the high road for a great distance and sat closely huddled together, with heads bent down, and from all this mass of human beings there rose a dull moaning, as they slowly and in measure repeated 'Aliahi' Aliah! The snow covered them, the wind blew through their red them, the wind olew through their chilled forms; no fire, no shelter, no bread. When the word of command to start was given I saw some of the older, venerable Turks, probably fathers of families crying like children, and imploring the escort to let them go as far as the town to dry their clothes, warm themselves and reat. But cort to let them go as far as the town to dry
their clothes, warm themselves and rest. But
this was strictly forbidden, as there were
such numbers of them, and only one answer
was returned to their supplications: 'Forward!'
The height of horror is resched in 'The Conquered.' A regiment of Russian were or

and the remainder retired. The Turks threw themselves on the dead and wounded, stripped them naked and even mutilated the bodies. The Russians captured the fortress two days afterward, collected the bodies of their comrades and buried them all in one large grave. The painter shows the priest in robes swinging a censer, a soldier holding the priest's book, and a field covered with naked dead men. Not one detail of the awful picture is idealized Not one detail of the awful picture is idealized or omitted. The severed heads, hacked limbs and the purple hue of decay are, on the canvas, as real as on the field.

If the idea that the painter is preaching sermons against war can be accepted by the public these features of the exhibition will meet with no adverse criticism, while if he is looked upon only as an uncompromising realist-

INSPECTING THE LINE.

Work on the Elevated Railroad to Be Commenced at an Early Date.

This morning Ernest Thalmann and Albert imer, both of New York, arrived in the city and registered at the Southern. These gentlemen are well-known capitalists of New York and are largely projected for St. Louis. Messrs. S. F. & T. A. Scott have for the last six months been in correspondence with them in relation to securing funds for the completion of the elevated road, and long before the bill was passed by the Municipal Assembly authorizing the ersection of elevated tracks a contract had been signed by which the requisite funds were pledged for the end in view.

At 10 o'clock this morning Messrs. Thaimann and Altheimer visited the office of the Scott Bros., and shortly afterwards, accompanied by Thomas A. Scott and Engineer Bonzana accompanied by Mayor Noonan, took a carriage and drove over the proposed line of the elevated road. Both New York gentlemen are stockholders in the elevated railroad of their city, and were largely interested in the Kansas City elevated framchise. A careful survey of line iaid out was made, and complete satisfaction expressed with the terms of the bill which recently received the signature of the Mayor. Messrs. Thaihann and Altheimer will remain in the city several days for the purpose of completing the necessary preliminary arrangements for commencing the work of construction. Mr. Thaimann said that work would be commenced in the immediate future.

A Wife Beater Handsomely Treated in the

Werthman, a burly brute, living at 111 Soulard street, was in the First District Police ert this morning on the charge of disturbing the peace. The evidence showed that Werthman made a practice of beating his wife in the most mercliess manner. Last night he in the most merciless manner. Last night he made up his mind to give her a good drubbing but, as soon as he entered the house, the woman, suspecting his designs, ran from the house. Werthman disrobed and went to bed. Under his pillow he placed a 38 caliber revolver and a heavy billy. Late in the evening the trembling wife returned to her home. No sooner had she disrobed, however, than the husband jumped out of bed, selzed her by the hair and beat and kicked her to his heart's content. The police were notified of the case and Werthman was placed under arrest. Judge Cady fined him \$50 for disturbing the peace and ordered him committed until the fine was paid. As there was no evidence to prove that the prisoner carried either the revolver or the bility, a case against him for carrying concealed weapons was dismissed.

This was done by making a complaint under an old New Jersey law against some of the officers. Immediately

after the day's sport was over Officer John Maple served warrants on A. J. Cassatt and D. A. Withers, President and Treasurer re-spectively of the Monmouth Park Association. A warrant was in the hands of the same officer for the arrest also of J. H. Coster Secretary. Messrs, Cassatt and Withers were released on \$200 ball.

The warrants were sworn out by one Thos. Couchen of this city, who declared that the association was keeping a disorderly house. By the term "disorderly house" under this law is meant any place of resort where gaming is indulged in. Any person who keeps such a place is deemed to keep a disorderly house and can be arrested and punished un-

second, Stivetts going to right field. Base hits—St. Louis, 20; Columbus, 12. Errors—St. Lonis, 7: Columbus, 5. The same was called at the end of the eighth inning to enable the Columbus Club to eatch a train.

The Brocklyns won at Kansas City by a score of 1 to 2. Sowders and Hoover for Kansas City and Hughes and Clark for Brocklyn were the batteries. Base hits—Kansas City, 5; Brocklyn, 6. Errors—Kansas City, 6; Brocklyn, 4. At Cincinnati the home team was defeated by the Athletics by a score of 10 to 9. Duryea and Keenan for Cincinnati and Weyhing and Cross for the Athletics were the batteries. Base hits—Ten each. Errors—Cincinnati, 5; Athletics, 1.

At Louisville the Baltimores scored three runs in the first inning and they were the only runs made during the game, the final score standing 3 to 0 in favor of the Baltimore; Ehret and Cook, Louisville. Base hits—Baltimore, 7; Louisville, Errors—Baltimore, 0; Louisville, 1. Umpire Goidsmith sent word he would not appear on the ground, and the impression prevails in Louisville than the was afraid to do so because he did not apologize to the bank official whom he by mistake attempted to have ejected from the grounds Wednesday for hooting at him.

LEAGUE GAMES.

At Cleveland yesterday the home team batted Madden of the Bostons safely 27 times for a total of 48 bases, and won the game by a score of 19 to 8. Bakely was in the box for Cleveland, but during the second inning gave way to Twitchell, as he was very wild. Twitchell was also wild and Gruber displaced him in the next inning. The Bostons secured 10 hits. The catchers were Zimmer for Cleveland and Kelly for Boston. Errors—Cleveland, 2; Boston, 4.

The Giants were defeated at Pittsburg by a score of 9 to 2. Keefe was very wild and ineffectual at the outset, but steadled down and after the fourth inning did not permit a man to reach first base. Ewing was injured and gave way to Murphy. Morris and Carroll were the Pittsburg by attery. Base hits—Pittsburg, 9.

Washington iost at Chicago by a score of 7 to 6. Tener and Farrell for Chicago and Ferron and Daly for Washington. St. At Indianapolis the Philadelphia won by a score of 8 to 6. Batteries—Philadelphia, Sanders and Schriver; Indianapolis, Boyle and Buckley. Base hits—Philadelphia, 1; Indianapolis, 3.

To-Morrow's Great Game.

Philadelphia's representatives, the Athletics, will make their re-entree at Sports man's Park to-morrow. They will also play here Sunday and bid an affectionate farewell to St. Louis for 1889 on Tuesday next. The three games will constitute the greatest series of the year, in that they will have a most important bearing upon the future standing of the Browns in their fight for the championship this season. The Athletics are the only club in the American Association who have any the best of the Browns in any one series. They are one game ahead of the champions in games played between the two toams, and there will be a red-hot time of it in the effort to throw off the Athletic yoke. The Athletics are playing the best ball they have played this season—their pitchers are in good shape, and they are in a good frame of mind, to give the Browns the hardest siege of it they have had this season. Elton Chamberlin, who did so nobly against the Brooklyns, will face the Athletics. At to-morrow's game President Yon der Ahe will present each lady attending with a handsome souvenir, which he secured while East recently. The game will started. here Sunday and bid an affectionate farewell

Latham appears to be anxious to return to his old position. No doubt the actor-ballthe home team by a score of 19 to 11. Widner and O'Connor were put in the points by the visitors, but the former was batted out of the box in the first inning, and Gastright took his place. He was also batted very hard. King, who pitched for the home team, fared pretty badly at the hands of the visitors. Commikey gave way on first base to Jack Boyle, Milligan retired from behind the bat in Meeks' favor, and Robinson was hit in the bead with a pitched ball and McCarthy filled his place at Open Saturday Until 10 p. m.

as follows in response to the challenge: will play the Peach Pies for anything." Base Ball Notes. Joe Gerhart will finish out the season with the Hartford Club. Curt Weich will be here to-morrow. Curt still thinks "we are the people." It is claimed that R. C. Hewett of Washington is auxious to get out of base ball. To-morrow's great game will draw out an enormous crowd. The Athletics are prime avorites in St. Louis.

The Athletic series will have still greater in-fluence upon the ultimatum in the pennant race than did the Brooklyn games. Old Pop Purcell in his state of rejuvenation is covering himself with glory this season. He is a very different man since his first time It begins to look like New York and Ss, Louis, and these two clubs will probably again battle for the world's championship in Octo-ber.—Philadelphia Ledger.

The Easton Base Bail Club has organized and would like to hear from all nines under 18 years of age. Address challenges to Sam-uel Greer, Jr., 1824 Sullivan avenue. There is not much bluster about Bierbauer's second base playing, but it goes without saying that he is one of the finest in his position. Besides he is a splendid stick wielder.

Elton Chamberlin and Weyhing, two of the best pitchers in the Association, will face each other in all probability to-morrow. They are both doing yeoman service for their respec-ive clubs. Capt. Harry Stovey of the Athletics is not

Capt. Harry Stovey of the Athletics is not only one of the greatest ball players in the profession, but he is a first-class fellow personaily. Harry has done great work for the Athletics which Messrs. Sharsig and Whittaker no doubt appreciate.

Joe Pritchard, who generally knows whathe is talking about, says in the Sporting Life of this week: "Hub Collins has a nephew on the FOST-DISPATCH of this city who is only about It vears old, and the wouncaster is one of the Jack Milligan is called "Mulligan" in New York, and some of the people down this way have come to the conclusion that he is re-ally the Mulligan of the Mulligan Guards, on account of the way he guards the home plate. —[Joe Pritchard in the Sporting Life.

Capt. Comiskey, who worked as he never worked before to come out victorious over Brooklyn, has his weather eye on the Athletics, and he watches their playing more closely than any other team in the country. The Athletics are the Browns' most dangerous opponents he thinks.

The manager of the Bucks writes: "The Bucks have three more Saturdays on which to play ball. Any one or all of them will be held open for the Peach Pie should they feel disposed to play. The Bucks don't claim to be champions of the State, but think they have a first class nine and would like to have a go at the Peach Pies."

the Searle-O'Conney race. Teemer says he will row for the championship and \$1,000 a side or any substantial stake. If Gaudaur accepts the race must take place about the middle of September, but Teemer will make a later date for Searle or O'Connor.

Mr. J. A. St. John, backer of Gaudaur, returned to the city this morning. He was away attending the regattas of the National Amateur Rowing Association and the Mississippi Valley Amateur Rowing Association and the Mississippi Valley Amateur Rowing Association at Puliman, Ill., and went from there to Oconomowoe. He says he had a very enjoyable trip, and that the sport was excellent at the regattas. He was asked whether he would accept Teemer's challenge and replied: "I will take no notice of it until he puts up his forfett money. There is no use in paying any attention to a challenge which is not accompanied by a deposit. If Teemer makes a deposit I will talk business to him, but will not accept his challenge in the shape he now puts it. He names the course at his home, backeesport, as the place for the race. It is not customary for a party issuing a challenge to name the course. If the match is made it will have to be according to usual custom on a course mutually agreed upon."

"Peterson is also quoted as being anxious

"If he puts up deposit money I think I will
be able to accommodate him, but it is useless
to notice these challenges which are not accompanied by forfeit money. Anybody can

An Answer to Mr. Cabanne.

Sporting Notes.

There is very little doubt but Buck Ewing is the right man in the right place. For the past two years he has been classed as a kicker and a builty, but if that is the sort of work that wins the championship, then Buck should be allowed to go right on. One thing is quite certain, and that is a captain can be a joilty good fellow with the players and use a sufficient amount of will power to show them that his orders must be obeyed. No man can captain or manage a bail team successfully without the right amount of will power, as is shown in the case of Anson and Comiskey.

As President Byrne of the Brooklyn Club says,

Slavin, the Australian heavy-weight, is willing to meet Smith, Mitchell or Jackson in London with the gloves. He will only meet Sullivan, however, under London prize-ring makes Slavin's challenge to John L. look very much like a bid for cheap advertising.

The following card was received at this

office to-day:

Mr. Cabanne misrepresents me in his challenge, willingly or not I do not know, as I have never made the statement that I was willing to swim any amateur any distance up to fifty miles. Let Mr. Cabanne properly read my challange to amateur swimmers, which appeared some months ago when I was fit to race and not in the condition that I am in now. Should there appear anything in the challenge which may suit his fancy he can let me know and a match can be arranged according to terms of challenge. Respectfully, St. Louis, August 16, 1889. E. MERCADIER.

When Pony Moore came to this country to see the Suilivan-Kilrain fight he claimed to have brought \$15,000 from Kilrain's backers in England. Now these same backers would like to know what he did with their money, as it is a well known fact that he only made one bet of \$1,000 with Barney McGuire at the ring curing the fourteenth round, when he thought Kilrain had a slight show of defeating Suilivan. Outside of that no one knows of his placing any money on either side, but he claims that he lost it all in backing Kilrain, just the same.
